

Solenoids applications

Gate diverters, depending on the application, can be used continuously or very infrequently. In this example, a BTA rotary actuator is chosen for its field-proven long life rating of 100+ million actuations.

STA Tubular Solenoide

Selección de productos con Solenoides

The image shows a cylindrical, metallic STA Tubular Solenoide on the left. To its right is a close-up photograph of a gate diverter mechanism in operation, with several bright red tomatoes being diverted. The ERMEC logo is visible at the bottom left of the image area, and the URL www.ermec.es/solenoides is at the bottom center.
