All legends above are made by laser marking on a black soft touch painted translucent (frosted white) cap

NOTE:

- The size of the legends listed may not correspond to the actual size.
- All legends above are made for specific caps, if you want to use a specific legend for another cap, the size of the legend has to be checked. If the size fits then there is no cliché cost (or programming cost in case of laser marked legends).
- If you decide to use one of the standard legends without any adjustments (without a new cliché) on another cap than designated in the table, then there is no start-up cost, for this to apply the cap has to be black and the print white.

A dotted red line around the legends means it is standard legend for that cap and therefore no start-up cost applies.
