

Our product range

- ▶ thermal overload protector (230VAC/4A) **series P (NC), O (NO)**
(NC) normally close contacts, (NO) normally open contacts,
automatic reset function

- ▶ temperature limiter **series Q**
thermostat electrical self hold function

- ▶ current and temperature limiter **series Y**
thermoswitch, current sensitiv, electrical self hold function (eligible)

- ▶ temperature controller (230VAC/16A) **series KO, KS**
thermostat (NC, NO), temperature limiter, mechanical or
electrical self hold function (230VAC/10A) **series KB, SO**
alternative ceramic housing **series CO, CS, CB**

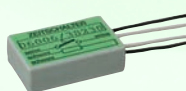

- ▶ thermal overload protector **series BM1**
max. current value 22A

- ▶ high temperature overload protector **series TB**
temperature range 200°C to 450°C

- ▶ thermal cut offs (fuses) **series DF, SF, SM, R, S, T, Ty**
temperature range 70°C to 315°C

- ▶ thermal timer **series ZN**
▶ **our strength are customized solutions**
