**CML**

INNOVATIVE TECHNOLOGIES  
WHERE INNOVATION COMES TO LIGHT

## SIXCESS - a new generation of la

- Long Life expectancy
- Rugged solid-state construction for shock & vibration resistance
- Reduced running costs
- Low power consumption
- Reduce down time
- Looks identical to 6S6 day or night
- Indoor or outdoor, sealed sockets

**NEW**

Utilising state of the art LED and packaging technology, CML introduces a device that has the appearance of an incandescent bulb whether it is day or night.

The new Sixcess lamp replaces a traditional 6 watt 6S6 candelabra bulb while consuming only 20% of the energy and lasting up to 20 times longer. It has a warm white colour similar to the bulb it replaces. 12V and 24V versions are available

## Sixcess U.S. technology at its best

Using LED technology developed at the leading edge of automotive and aviation lighting, CML can now offer a true cost saving replacement for the industry standard 6S6 lamp used extensively throughout the theme park and leisure industry.

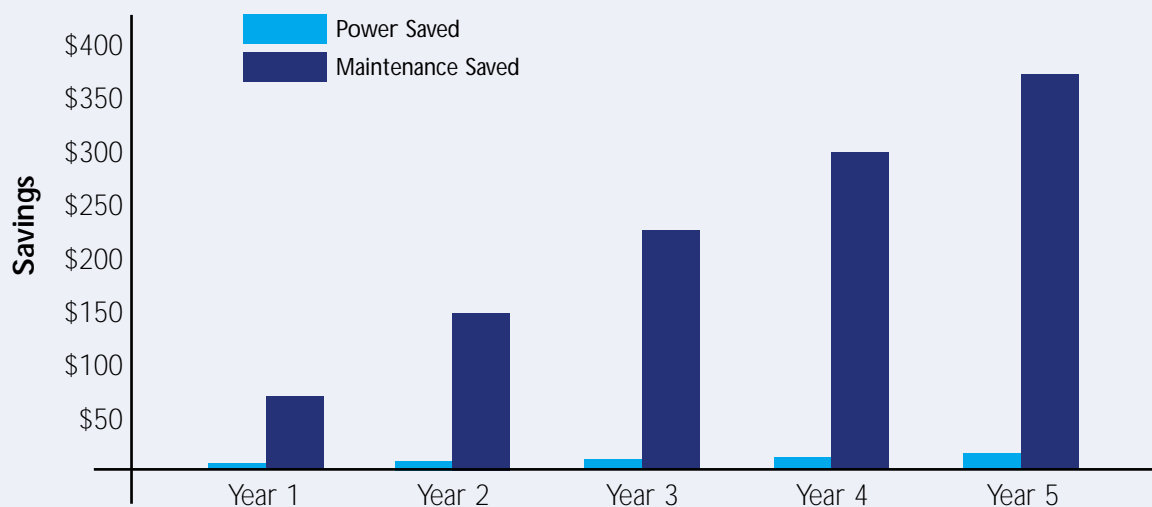

## Cost Saving Model

Year	Energy Saving	Maintenance Saving
1	\$1.99	\$75
2	\$3.97	\$150
3	\$5.96	\$225
4	\$7.97	\$300
5	\$9.93	\$375

### Assuming:

- 12hr/day ops
- \$0.77 / kWh
- 3 changes/year
- \$25 main.to change

## What else can CML offer?

R&D is based at our Germany Engineering centre in the ancient university town of Bamberg. Across Germany in Bad Durkheim is our LED Test & Accreditation lab (the only privately owned lab of its kind in the world) it is here that LED products sold by CML and used in our designs are checked and calibrated prior to them entering production. A service we also offer to customers and LED suppliers from across the world.

In Hackensack USA is our CML global corporate headquarters and FAA accredited aerospace facility providing lighting systems to airlines and aircraft builders in USA and across the globe. It is here we also maintain our USA design office.

Besancon France houses our European automotive design centre alongside our tooling & automotive products manufacturing centre.

Across Europe we have 5 manufacturing plants, 2 in the UK, 1 in Germany, 1 in France and 1 in Czech. In addition Costa Rica and China provide our low cost facilities. CML are always able to offer a "local" manufacturing facility therefore minimising logistic costs.
